APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application,
 and do hereby grant the same, subject to the following limitations and
 conditions:

This permit is issued subject to all existing rights on the
 source. If well is flowing, a valve must be installed and maintained to
 prevent waste. No right is given under this permit to maintain the
 water level in permittees well at any level higher than that necessary
 for a reasonable pumping lift. This source is located within an area
 designated by the State Engineer pursuant to Section 4 of the Underground
 Water Act; therefore the State reserves the right to regulate the use
 of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount
 which can be applied to beneficial use, and not to exceed 0.3
 cubic feet per second.

Actual construction work shall begin on or before December 20, 1950

Proof of commencement of work shall be filed before January 20, 1951

Work must be prosecuted with reasonable diligence and be completed on or
 before December 20, 1951

Proof of completion of work shall be filed before January 20, 1952

Application of water to beneficial use shall be made on or before
 December 20, 1952

Proof of the application of water to beneficial

use must be filed with State Engineer on or before January 20, 1953
